

# SORGHUM PRODUCT INFORMATION

NEW

## H6057

Medium Maturity Group  
65 Relative Days to Half Bloom

### GRAIN SORGHUM

#### KEY CHARACTERISTICS

- High yielding to mid maturity
- Great Post Flowering Drought
- Very Good SCA Tolerance
- Above Average cold emergence

#### PLANT CHARACTERISTICS

Relative Days to Half Bloom	Grain Color	Endosperm Color	Cold Emergence	Yield Under Drought	Heat Response	Drydown	Test Weight
65	Red	NA	Above Avg	Above Avg	Above Avg	Above Avg	7

#### DISEASE TOLERANCE

Disease	1	3	5	7	9
Charcoal Rot	NR				
Fusarium Mold	NR				
Head Smut North	NR				
Downy Mildew Pathotype 3	NR				
Anthrachnose East & West	NR				
Leaf Blight	NR				
Sooty Strip	NR				
Head Fusarium	NR				

#### Chart Ratings

All ratings on a 1-9 scale with 9 being the highest | Plant Type: 9 = Extremely Bushy, 1 = Very Narrow | Height Ratings: 4-5 = Medium Height for Maturity, 6-7 = Medium - Tall Height for Maturity, 8-9 = Tall Height for Maturity

1 = Poor, 9 = Excellent | E = Excellent, G = Good, F = Fair | NR = No Rating

\*\* All products denoted with <sup>TM</sup> are brand names.

**Product performance in water-limited environments is variable and depends on many factors such as the severity and timing of moisture deficiency, heat stress, soil type, management practices and environmental stress as well as disease and pest pressures. All products may exhibit reduced yield under water and heat stress. Individual results may vary.**

**IMPORTANT:** Trait rating scores provide key information useful in selection and management of Hoegemeyer brand products in your area. Information and ratings are based on comparisons with other Hoegemeyer brand products, not competitive products. Information and scores are assigned by Hoegemeyer Product Leads. Scores are based on period-of-years testing through 2024 harvest and were the latest available at time of printing. Some scores may change after 2025 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.therightseed.com](http://www.therightseed.com) or contact a Hoegemeyer sales professional for the latest and most complete listing of traits and scores for each Hoegemeyer brand product and for product placement and management suggestions specific to your operation and local conditions.

Hoegemeyer brand products are provided subject to the terms and conditions of purchase which are part of the labeling and purchase documents.
